

Pennsylvania Green & Healthy Schools Forum

Friday, February 17, 2017 | 9:00 AM – 4:00 PM

PaTTAN Harrisburg | Lebanon Room
6340 Flank Dr., Harrisburg, PA 17112

Join the Pennsylvania Green & Healthy Schools Partnership (PAGHSP) and the National Wildlife Federation (NWF) for our first green schools stakeholder forum on Friday, February 17, 2017 at PaTTAN Harrisburg. The forum will bring together experts, practitioners, and resource providers to explore the “how,” “what,” and “why” of greening your school. Structured around NWF’s Eco-Schools USA program, the panels will focus on issues related to Consumption and Waste and Water Conservation and Quality. An experienced facilitator will also help guide small group discussions related to school sustainability issues and student engagement, providing time to share your experiences and to develop new ideas that can be implemented at the school(s) you work with.

Participants will learn about NWF’s Eco-Schools USA program and network with PA Green & Healthy Schools Partners, school stakeholders, government agencies, NGOs, and community members who share a common interest in promoting sustainability at schools.

This event is free-of-charge, made possible by support from the National Oceanic and Atmospheric Administration (NOAA), the Chesapeake Bay Trust (CBT), and the Pennsylvania Department of Environmental Protection (DEP). It has been approved for **six Act 48 hours** for Pennsylvania educational professionals. Breakfast and lunch will be provided for all attendees.

There is also limited funding available to cover substitute teacher reimbursements. Submit reimbursement requests, including number of teachers and cost, or any general questions about the event to Holly Shields at shieldsh@nwf.org as soon as possible.
